Waybuloo™

100 X 19'

Waybuloo is a philosophy for a happy life and is like nothing children will have ever seen before.

Waybuloo, a new landmark pre-school series for the BBC, transports children into Nara, a world of happiness and friendship and home to the adorable animated characters called Piplings. The series is unique in its exploration of emotions and relationships and the Piplings and the audience learn together how to relate to friends, family and the world around us.

In each episode the Piplings – mischievous Yojojo, wise Nok Tok, creative Lau Lau, and loving De Li - are joined by six children who arrive from over the hill to play 'Peeka' (hide and seek!), practice 'Yogo' (yoga!) and explore the world of Nara with the Piplings. Live action blends with the magic of CGI animation showing that every child can visit Nara and interact with the Piplings and their world.

Through warmth, friendship and co-operation, *Waybuloo* shows children natural and spontaneous routes to happiness.
